FOR IMMEDIATE RELEASE

April 21, 2009

THE SHELLY COMPANY'S FINDLAY DIVISION RECOGNIZED WITH ODNR AWARD

Stoneco Inc., a division of The Shelly Company, recently was selected to receive the 2008 Minerals Education – Public Outreach Award from the Ohio Department of Natural Resources, Division of Mineral Resources Management for its work at its Montpelier North Wildlife Site.

The award is in recognition of the group's efforts to raise awareness about the use of minerals and the issues associated with mining and the environment.

"We are honored to be recognized by the Ohio Department of Natural Resources and take pride in this award," said Ty Nofziger, senior vice president for the group. "Our staff has dedicated a tremendous amount of time to transform this sand & gravel location to a beautiful wildlife sanctuary, and this award confirms their efforts are appreciated."

The Montpelier North Wildlife Site sits on a former sand & gravel operation. The site features lakes, wetlands and many animal species and recently incorporated an education program established by the Wildlife Habitat Enhancement Program and is working toward a certification as a Wildlife Habitat Council Corporate Lands for Learning site.

A subsidiary of Oldcastle Materials Group, The Shelly Company is the state's leader in road construction and asphalt, aggregate and ready mix products. With more than 2,500 employees, The Shelly Company has divisional offices in Thornville, Columbus, Findlay and Twinsburg and more than 90 production facilities throughout the state.
